Parrott, chairman of select committee to whom was referred H. B. No. 3, entitled "An Act to incorporate the Helena City Water Company," beg leave to report that they have had said bill under consideration, and find that the following facts exist in regard thereto, to wit:

The bill seeks to grant to a company residing in Helena City, Montana Territory, the exclusive right to take possession of, and convey water to, said city, for the use of the inhabitants thereof, the water of certain springs in Last Chanca and Grizzly Culches, charging therefor certain rates designated in said Chance and Grizzly Gulches, charging therefor certain rates designated in said bill; and that said company have now possession of the lowermost spring, and are conveying the water therefrom to said city in bored logs, placed under ground.

For the use of the inhabitants thereof, and shall have the right to convey and distribute said water for, and during the term of ten years from the date and passage of this act.

The following communication from the Governor was read:

SECRETARY'S OFFICE. Virginia City, M. T., March 14th, 1866.

To the Honorable Speaker of the House of Representatives:

SIR: I have the honor to transmit to your honorable body a communication, received by me this morning, from Major-General Sherman, commanding the grand military division of the Mississippi, in which division Montana is included. From this communication you will perceive, Mr. Speaker, that for some months at least, Montana will have to depend upon herself for protection against the enemies of her peace and progress.

I beg, therefore, respectfully to suggest, that an appropriation—say of \$25,000—for military purposes, to meet any serious emergency which may exist to demand the exercise of armed force by the Executive of the Territory. This appropriation should be left in the Treasury, subject to the order of the Governor, and his power to draw upon it should be guarded in favor of the public interest, by proper and well-defined conditions, which would prevent its being used otherwise than for the purposes designated in such emergencies as are indicated, and then only with economy. to the trees of the parties and the

SAINT LOUIS, Feb. 17th, 1866.

Gen. Thos. F. Meagher, Secretary of Montana, Virginia City— SIB: I have received your several letters—as also one from Gov. Edgerton on the subject of troops for Montana, and routes leading thereto. Until Congress fixes the military establishments, it is idle for us to calculate what proportion of troops can be assigned to any part. Were I to grant one-tenth part of the calls for men from me, from Montana to Texas, I would have to call for one hundred thousand men; whereas, I doubt if I should expect to have ten thousand in all. You ask for one regiment of cavalry. I now have one regiment of regular cavalry (the 2d) for Montana, Dacotah, Nebraska, Colorado, Kansas and New Marica. So you see it is idle to avence all margarely the cavalry to the cavalry to avence all margarely to the cavalry. ado, Kansas and New Mexico. So you see it is idle to expect all my cavalry in one remote Territory, leaving all the others without, and leaving the roads this side of you unguarded.

Even after Congress fixes the military establishment, you know it will take time to enlist and march cavalry; and a still more important question is now under debate, whether to the hostile Indians we are to add all the white people of the South as permanent enemies, to be watched and kept in subjection by military force. As soon as these things are settled, we can come at an approximate estimate of what troops can be spared for Montana.

As soon as spring comes, we must discharge every volunteer on the plains and in the remote Territories, and Gen. Pope is pressing, with all possible energy, to relieve the essential garrisons with regular infantry. Your people may safely count on the Missouri river, and the Platte route to Laramic and Ft. Reno, to Montana, and that is about all we can attempt now. We cannot for months, if this year, promise to place any cavalry in Montana.

Yours truly, W. T. SHERMAN, Major-General.

Mr. Speaker: Your committee on H. B. No. 13, report as follows: This
bill is an act to amend the charter of Virginia City. It proposes to simplify

the government, by striking out the present large and useless number of elective offices, and permit the council of the city to appoint such officers as are necessary for the city government. It also proposes to permit, in case of special elections in certain necessary instances, to open one set of polls, at which all the voters may vote, instead of four sets, as is now necessary under the existing laws; which change, as well as the first, will be a source of economy to the citizens of said city. B. B. Parrott, chairman of committee on Finance, reported:

Mr Speaker: Your committee on Finance, to whom was referred all that portion of the Governor's message relating to Indian difficulty, beg leave to report that they have had the same under consideration, and find that the frequent rumors of depredations committed by hostile Indians, upon persons and property of unoffending whites, are not altogether unfounded.

It must be admitted, however, that in some instances the depredations complained of, grew out of disgraceful alliances with members of tribes hostile to each other, wherein white men, by most disgraceful associations, subject themselves and their property to the barbarous warfare of contending tribes.

It is equally true that brave and noble-hearted young men, while peacefully pursuing their labors in this Territory, and innocent babes and helpless mothers while on their way hither, have been brutally murdered by these merciless and bloody savages. Horses and other property of the citizens living in the remote portion of the Territory, are continually being stolen by them, and the lives of communities in many parts of the Territory, rendered unsafe for ordinary travel.

In the opinion of your committee, the people of this Territory have just reason to complain that they have been taxed by the General Government, and the taxes collected by the Federal officers to an enormous amount, and at least \$80,000 of the amount collected in the last year, paid in to the United States, and yet no protection has been offered to the people from savages, red or white,

who infest the Territory and the thoroughfares leading thereto.

It is the opinion of your committee that it would be but reasonable and just for the Government of the United States to apply a sufficient amount of the money thus collected, to the protection of the citizens living in, going from or

money thus collected, to the protection of the citizens living in, going from or coming into the Territory.

Your committee are of the opinion that soldiers drilled in formal or civilized warfare, are unfit for Indian warfare in a mountain country, and that it would be worse than useless to send regiments of troops, at an enormous expense, to remain comparatively idle in the Territory, while efficient men-tamers can be had at a minute's warning, for any emergency, at one-tenth of the cost, if means are only provided for their pay, equipment and subsistence.

The fluances of the Territory are not in a condition to advance large sums of money to the United States for different purposes, without strong proof of the necessity of such expenditures, especially when it is not known that the amount thus expended will be reimbursed to the people of the Territory by the United States.

Your committee would therefore, respectfully recommend a joint memorial of the Legislative Assembly, be addressed to the President and Congress, that a sufficient amount of the means collected as aforesaid, by the revenue officers of the Government in this Territory, be appropriated for such defensive purposes.

ninofbs of noiton sid fowner depolled h. R. B. PARROT, Chairman. R. B. PARROT, Chairman of committee on Federal Relations, reported:

Mr. Speaker: Your committee, to whom was referred that part of the Governor's Message relating to the military situation of the Territory, beg leave to make the following report. That they have gathered all the information with reference to the Indian troubles at and below Fort Benton on the Missouri river, and also in relation to the various parts from which reports have come of the whites leaving because of evidence of hostile demonstrations of the Indians. That there is, evidently, among some of the tribes, a feeling of hostility towards the settlers, which may break out at any moment; but your committee are of the opinion, that if the whites would manifest a conciliatory disposition towards those Indians frequenting the military posts on our borders, and the small settlements in the more remote parts of the Territory, outbreaks of the Indians would be avoided until the United States furnishes

troops sufficient to give ample protection to all. Interest call bluez withingston

Your committee regret to learn from a high official source that aid cannot be hoped for this year from the General Government, or at least none that will afford that complete and adequate protection that American citizens have been taught to believe would be given them by the Government; and your committee would beg to refer to the late letter of General Sherman, sent by his Excellency, Governor Meagher, to this House, and ask that the letter of General Sherman, and the letter of General Sherman, sent by his Excellency, Governor Meagher, to this House, and ask that the letter of General Sherman, sent by his house, and ask that the letter of General Sherman. eral Sherman be taken as part of the report, a copy of which your com-Aman " long leave to

mittee herewith transmit.

Your committee are slow, indeed, to come to any conclusion as to what ought to be done to give aid, in case aid is needed, to our citizens on our borders. To offer them no assistance, looks a little like we neither desired, or in any way cared for their welfare and happiness, and to tell them we would do so, and then not be able to keep our promise, might, and to the minds of your committee, would be, most ruinous, indeed; for upon the faith that a law had been made appropriating \$25,000, to be disbursed only for military purposes, would evidently inspire a feeling of risk in passing into or through the Territory inhabited by the Indians, and when the same would be drawn upon to meet the purposes contemplated, then it would be found far too little to give the citizens the very slightest protection. Therefore, your committee cannot recommend that any such appropriation be made, nor are your committee prepared to suggest any sum that would be at all adequate, viewing the financial condition of the Territory as they do.

GEO. H. HANNA, Chairman. R. B. Parrott, chairman of committee on Judiciary, to whom was referred all that portion of the Governor's Message relating to the appropriation for the Territory, beg leave to report that they have had the same under consideration, and find that in the year 1865, in obedience to the call of Governor Edgerton, for an armed and equipped military force to relieve the emigrants and inhabitants in the vicinity of Fort Benton, from the threatened hostility of the Indians, many of the people not only responded promptly to the call, but furnished others with arms and other equipments.

It is the opinion of this committee, that the money thus expended, a reasonable compensation for loss of time, the use of horses, saddles, etc., as well as divers other losses sustained by individuals, because of Indian aggression, form a just claim against the United States, which should be paid by special

appropriation for that purpose,
In the year 1865, vast sums of money, under prefense of law, were unlawfully collected from the miners of the Territory, in the way of constructive
mileage, clerks' fees, marshals' fees, fines, etc., for a failure to pay a pretended
Government license, claimed to be due, for the privilege of claiming two
hundred feet of ground for mining purposes, when in some instances not a dollar had been realized out of the claim, and in the majority of cases, not even a thousand dollars had been realized from the claims then taxed of the opinion that it would be no more than just that

the United States pay back to the persons entitled thereto, the sum thus unlawfully taken from them, under color of law, by the United States officers.

Your committee concur with his Excellency, that an appropriation of at least \$50,000, should be made by the United States Government for Territorial buildings.

buildings.

We deem the Missouri river of such material importance, susceptible as it is of bearing to the emporium of the world, the vast treasures of the mountains and valleys of Montana Territory, that we deem an appropriation very necessary for the purpose of improving its navigation. Indeed, it is the solumn conviction of your committee, that as a mere question of profit and loss, the United States would be greatly benefited in less than ten years, by appropriating \$500,000 for the purpose of improving the river and constructing

and repairing bridges and roads leading to the Territory of Montana.

Your committee would respectfully recommend that a joint memorial of the Council and House of Representatives, be addressed to the President and Congress of the United States, praying for the above appropriation. And your committee would also recommend that a committee of five be appointed by the Legislature to ascertain the amount due individuals on account of Indian depredations above referred to; also, the amounts unlawfully taken from our miners by the United States officers, in cases mentioned in the above report.

R. B. PARROTT, Chairman.

Mr. Speaker: Your committee, to whom was referred C. B. No. 34, "An Act to dissolve the bonds of matrimony between Allen Anson and Annette Anson," beg leave to report that they have had the same under consideration, have examined several affidavits, and find the party above named is justly entitled to a divorce. Your committee would recommend that the bill do pass. A. J. SMITH, Chairman

Parrott. chairman of committee on Judiciary, reported:

Mr. Speaker: Your committee on Judiciary, to whom was referred that portion of the Governor's message relating to the printing and binding of the laws passed by the last Legislature, beg leave to report that, so far as they are informed, his Excellency, Thomas Francis Meagher, Secretary and Acting-Governor of the Territory, has performed his duty in that respect, as set forth Report received. in said message.

EXECUTIVE OFFICE, M. T., VIRGINIA CITY, March 19, 1866.

MR. PARROTT: Understanding that there is some discussion going on in the House having reference to the payment to me of a ballance due the Executive office, out of the extra pay voted the Governor, and other Federal officers, by the Legislature last year, I beg you will be so good as to convey to the House my earnest wish that such discussion should cease.

It is anything but pleasant to me to have the public time taken up in a discussion in which, to some extent, I am personally involved. That, in the second place, I beg to assure the House, through you, that I do not wish to have a single dollar out of the Territorial fund.

The Federal Government ought to provide for its officers, that the latter in nowise should be a burthen to the Territory.

I fully approve, therefore, before hand, of the bill which strikes off the Territorial additional for the pay of Federal officers; and beg, in conclusion, to suggest that if there is anything legally due the Executive office, it shall be transferred to the Miners' Hospital, at Helena. The following report from the Auditor was received:

TERRITORIAL AUDITOR'S OFFICE,

Virginia City, M. T., March 15, 1866,

To the Honorable, the Members of the House of Representatives, Assembly of the Territory of Montana:

the Territory of Montana: GENTLEMEN: The misapprehension that seems to exist in the minds of some of the members of your honorable body relative to the manner in which the Auditor has discharged the duties of his office, prompts me to make the following statement before retiring from that position of honor which the unanimous voice of a former Legislature was pleased to confer upon me: On entering upon the duties of the office of Auditor, the law made it my duty to supply each county in the Territory with the necessary blanks for issuing licenses, tax receipts, balance certificates, scrips, etc., amounting to 50,000 or 60,000

There was but one printing press in the Territory, and they would work for nothing but gold dust. The press of Salt Lake would not work for the liabilities of the Territory. Thus situated, I felt that I had caught a larger elephant than I could conveniently handle. Fortune, however, favored me in the possession of a small hand press, which I placed in the hands of Mr. M. H. Lott, who did the necessary work at rates comparatively liberal, and received his pay in scrip, amounting to \$4,126.00. Tilton & Co. then proposed to do the work for Territorial scrip; and I gave it to them at rates somewhat higher; but the work was done in better style, to the amount of \$2,042.00— a considerable portion of which is still on hand in the office.

The demand for blanks did not come up to the estimate I had made. Some

of the counties did not organize, hence, needed none. The manner of conducting the business of the office, that I have adopted, is as follows:

The blanks are all numbered and signed by me, and charged to the County Treasurer to whom they are issued, and they are held strictly accountable for each individual blank, and a duplicate account of its issue is returned to this office on settlement with them, and here kept as evidence of the correctness of such settlement. The County Treasurer is charged with the amount thus shown to have been collected, and credited with Territorial Treasurer's receipts for the amount deposited with him, said receipts being filed in this office, and the Territorial Treasurer charged with the amount so receipted. and credited with the amount of scrip here deposited and cancelled — which is also carefully filed, and kept as an evidence of the transaction.

The issue of scrip is only on proper vouchers, filed in the office, and an account opened with any person with a credit for the amount of his vouchers, and debter to the amount of his vouchers.

and debtor to the amount of scrip issued to him -the number and date of which is carefully entered - duplicated account of which is kept and filed with the Territorial Treasurer, by a reference to which he redeems and cancels, or pays said scrip; thus rendering it impossible for any scrip to be redeemed that was not legally issued.

No scrip has been issued by any persons outside the provisions of law, except to the County Commissioners for stationery, office rent, etc.,—which the necessity of the case seemed to demand—and is the only claim I have for your indorsement of the act.

I had intended to propose an elaborate and detailed account of the business of the office, but found it would be as cumbersome as the books of the office themselves, to which I propose to invite your attention through your committee, as being more satisfactory than such a report could be made.

Most respectfully your obedient servant,

"attal malibered" discu JOHN S. LOTT, Auditor Territory of Montana.

J. N. RICE, Chairman. J. McElroy,

McCullough, chairman of select committee on C. B. No. 5, reported:

Mr. Speaker: Your select committee, to whom was referred C. B. No. 5, beg leave to report that they have had the same under consideration, and find that the power vested in the County Commissioners, as provided in said bill, is not sufficiently restricted. Also the fees allowed by them to the Inspector of Weights and Measures, are burdensome to the people.

We further find that universal system of inspection will be most likely to meet the intention of the law, as provided in said bill. We, therefore, recommend that the amendment offered to this bill by your committee be adopted. Strike out of Section 2, after the word "each," the words "township or

district," and insert "voting precinct;" also, after the word "persons," in the 4th line of said section, insert "hereafter mentioned;" also after the words "after the office of Inspector of Weights and Measures," in the 5th line of said section, insert "such public place in each voting precinct as the County Commissioners shall designate in the hand-bill aforesaid."

Also in section 3d, in the 3d line of said section, strike out the word "coun-

ties," and insert the words "voting precinct."

Also, in said section in the 4th line, strike out the words "his office at the county seat of said county," and insert "the places designated in the handbills aforesaid."

Also, remove Sec. 7 to Sec. 10 of this act; add to Sec. 7, that each Inspector of Weights and Measures is hereby authorized to collect, as his fees for inspecting, measuring, stamping and comparing such balances, weights and measures as are enumerated in Sec. 3 of the act, as follows, to wit:

For inspecting and comparing each pair of scales of any kind whatever, to-

gether with the weights belonging to the same, the sum of \$1.

For each set of measures, \$1.

For each ballance, \$1.
For every other set of weights or measures, \$1. Mr. Sprakers Fine smin

Add, Sec. 8, that all ballances, weights or measures, so inspected, measured, or compared, by the Inspector of weights and measures, if found correct, shall be by him stamped, but none other.

J. S. McCullough, Chairman.

Report received and committee discharged.

Mimms, chairman of select committee on H. B. No. 15, reported:
Mr. Speaker: Your committee, to whom was referred H. B. No. 15, "An
Act to incorporate the Ten Mile and Last Chance consolidated water ditch company," have had the same under consideration, and have elicited the fol-

lowing facts relating thereto:

That the original company consisted of thirteen members; that said company commenced work on said ditch about November 1st, 1864, and have dug over seven miles of the ditch, except a little blasting, which has to be done. About four miles of digging, and about two miles of fluming, yet remain to be done. The cost of the ditch, so far, amounts to about \$11,000, and it is estimated that it will cost about \$15,000 to complete the ditch.

It is important to the people of Last Chance and Dry gulches, also the peo-

ple of Helena city, that the ditch should be completed at the earliest possible period. While this is true, it is also true that quite a number of settlers have settled on Ten Mile creek, being the same that the said ditch is to take water from, who, perhaps, are entitled to some portion of the water belonging to

said creek.

That, for the most part of the year, there will be sufficient water to supply

the ditch and the farmers residing along said stream.

Therefore, your committee beg leave to report back said bill, recommending that, after properly amending with a view to both the mining and the farming interests, the bill do pass.

R. W. Mimms, Chairman,
A. J. Smith,
J. McElroy.

Report received and committee discharged.

McCullough, chairman of select committee on C. B. No. 20, reported:

Mr. Speaker: Your select committee, to whom was referred C. B. No. 20, beg leave to report that they have had the same under consideration, and find no facts pro or con.

Your committee are of the opinion that these questions properly, belong to the Judiciary, and that great injustice may be done by granting divorces without proof, or on ex parte affidavits; especially when but one of the parties have any knowledge of the application for divorce. By such action of the Legislative body, the absentee, ever so innocent, may be deprived, not only of all her just claims to property, but her or his character; and children too, may be seriously affected by such action. Your committee, therefore, recommend that said bill do not pass.

Mr. Speaker: Your committee on Elections beg leave to report that they have carefully examined the election law now in force, and find the same in all of its parts amply sufficient (not judges or clerks) for attempting to practice frauds by trumping up false returns. Your committee are of the opinion that there ought to be an amendment to such law, to the effect that, any person attempting to practice frauds, by making false election returns, should be severely punished. Believing that the liberties of this people, as well as the severely punished. Believing that the liberties of this people, as well as the liberties of the American people generally, depend upon the purity of the ballot; that an effort by any person to defeat the object of this instrument, ballott, the greatest boon of Americans, should meet with the just condemnation of all citizens; and that such persons should be seriously punished.

Therefore, your committee report the following amendatory bill to the favorable consideration of this House. All of which is respectfully submitted.

Parrott was granted a leave of absence until to-morrow at 10 o'clock a. m. A communication was received from the Governor, announcing his approval of H. B. No. 11, and also the following, which was, on motion of Maxwell,

ordered to be spread upon the Journals: VIRGINIA CITY, March 29th, 1866.

To the Honorable, the Speaker of the House of Representatives:

SIR: I had the honor of being waited on this morning by Messrs. Weed and Hanna, a committee of your honorable House, with an act entitled "An Act to enable road, ditch, manufacturing, and other companies to become bodies corporate," and this committee communicated to me the request and desire of the House that I should have the same printed, as it was an act of great benefit and no less importance.

The House is well aware that I have earnestly studied its convenience, and

been most auxious to pay every respect to its wishes.

In the present instance, however, I am compelled by circumstances that have been forced upon me, to be slower in complying with the wishes of the House than it is in any way my disposition to be.

For this reason, but for no other whatever, do I repeat the circumstances to

which I allude.

The House is aware of those circumstances. Major Bruce, who was appointed by me to discharge the duties of Public Printer, and who, it gratifies me sincerely to say, discharged those duties in an admirable manner, sent to this office yesterday morning his resignation, adding to that resignation an intimation that it should not be accepted until after the adjournment of the Legislature, as he did not wish to inconvenience the Legislature or embarrass the Executive by its dating from the receipt of the communication referred to.

As I saw no reason whatever for Major Bruce tendering his resignation at the time he did, I considered that it would be submitting the Executive to what appears to me to be simply his caprice, were I to accept his resignation

subject to the modification or condition he proposed.

Consequently, I accepted his resignation then and there, and he ceased to be a Public Printer vesterday afternoon. Unwilling to make another appointment to the same office, which would place the printing of the Legislative proceedings in the hands of an establishment which, however respectable and efficient it is, I do not and cannot consider to be in harmony and concurrence with the National Administration, and the generous and noble policy of the Chief Magistrate of our Union, I declined to fill the vacancy at present.

Were the office of the Montana "Radiator" located in this city, I should have appointed Mr. Favorite, the editor and proprietor of that paper, to the

position of Public Printer.

Those were the circumstances in which I was placed, when your committee called upon me this morning.

Your committee are in full possession of my sentiments and disposition in

regard to the communication with which they were charged.

I told them distinctly that, having accepted Major Bruce's resignation, and regarding it as I did, it appears to me that it would be an unwarrantable submission of the Executive to the caprice, if not to the dictation of that gentleman were I to renew the privilege he had surrendered, and that he should never be authorized by me to resume it.

At the same time, anxious to facilitate the business of the Legislature, I should waive my objections to the Montana "Post," and ask Mr. Dittes as an accommodation to the Legislature, to print the bill recited in the foregoing part of this communication, and execute the printing of the Legislative pro-

ceedings for the remainder of the session.

Mr. Hopkins, my private Secretary, accordingly waited upon the gentlemen connected with the office of the Montana "Post," and learned from them that Mr. Dittes was absent from the city, and would not return until Sunday; that in his absence they would not undertake the business in question, but at the same time informed Mr. Hopkins they were of the opinion that Mr. Dittes, on his return, would undertake the work and have the incorporating act ready for Monday. ready for Monday.

I have the honor to submit this reply through your committee to your

honorable House; and am

Very truly your ob'dt serv't.

EXECUTIVE OFFICE, T. of M. VIRGINIA CITY, March 30th, 1866.

To the President of the Council:

MR. PRESIDENT: I have given the act to incorporate the Great Beaverhead

wagon road company the fullest and most conscientious consideration.

It shall have my heartiest approval, provided that the said road terminates on the south at the junction of the Bannack city and Virginia city roads to Salt Lake city; that it be limited to a quarter of a mile in width; that it shall not interfere with any free road already established; that there shall be one toll gate only established on it, and that at the mouth of the Beaverhead canon, at which gate the whole toll for traveling the entire length of the road shall be collected, at the following rates: For each vehicle drawn by one pair of animals, \$2; and the other rates the same as are mentioned in the bill.

I respectfully suggest these alterations, as I earnestly desire to have the existing monopoly of the Parsons road effectually neutralized, and the most liberal inducements and facilities compatible with a good road thrown open to the public. And with the hope that the bill may be so amended, I have the honor to return it, solely with that view. As the bill stands at present, it

Hanna, chairman of committee on Enrollment, reported:

Mr. Speaker: Your committee on Enrollment beg leave to report that they have carefully examined joint-resolution No. 6, asking Congress to amend the Organic Act of the Territory of Montana, and find the same correctly enrolled.

GEO. H. HANNA, Chairmman.

Weed, chairman of committee on Printing, reported:

Mr. Speaker: Your committee on Printing beg leave to report that they have carefully compared the report of committee on mines and minerals, and find the same correctly printed. WEED, Chairman.

Parrott made a report from a select committee:

Mr. Speaker: Your select committee, to whom was referred C. B. No. 7 and M. Speaker: 1 our select committee, to whom was referred C. B. No. 7 and H. B. No. 24, beg leave to report that they find the Incorporators. in C. B. No. 7, proposed to construct, and keep in good repair, a road from Virginia city by way of Sterling city, to Helena city; and that, in order to complete a road for travel, bridges will have to be constructed on the smaller streams between Sterling city and Helena city, and the road between the two last mentioned cities will need much work in order to complete and keep the same in order, with the bridges, according to the stipulations in the bill; that the greatest amount of labor to be performed list in opening said road between Virginia city. greatest amount of labor to be performed [is] in opening said road between Virginia city and Sterling city. Said incorporation in said bill No. 7, propose to establish one toll-gate on the whole of that road, i. e., between Virginia city and Sterling city, which will leave the road thus made, and kept in good repair, between Sterling city and Helena city, a free road for the use of farmers and others; also, giving to the public between the points mentioned, a free bridge across the Jefferson river, and other streams.

Your committee find that a road, with bridges, constructed from Virginia city to Helena city, by way of Sterling city, would come in competition with a road known as the King & Gillette road, and would be nearer from the point mentioned, than any route yet accessible to travel.

Your committee find that H. B. No. 24 is introduced for the purpose of obtaining a charter over a portion of the same road, as asked for in C. B. No. 7,

to wit: Between Virginia city and Sterling city.

Your committee are of the opinion that their minds, as Legislators, should be directed in making laws to the good of the whole country, and the whole people, without respect to persons; and, believing that a road running from Virginia city, by the way of Sterling city, when kept in good order, would be of more benefit to the people of the Territory at large, than a road from Virginia city to Sterling city could possibly be:
Your committee would, therefore, recommend that H. B. No. 24 be indefinitely postponed, and that C. B. No. 7 be passed as amended.

Respectfully submitted.

R. B. PARROTT, Chairman. On motion of Smith, the report was received, adopted, and committe dis-

Strike out in section 1st, lines 4, 5, 6, 7 and 8, down to the word "fourth."

Mr. Speaker: The undersigned, a minority of your select committee, to whom was referred C. B. The following communication from the Governor was read and, on motion of Smith, ordered spread on the journal;

EXECUTIVE OFFICE, VIRGINIA CITY, M. T., April 6th, 1866.

To the Speaker of the House of Representatives:

SIR-I learned last evening, that my military services in the Union army, unimportant as they have been, are under discussion in the House of Representatives, with a view of having them honorably acknowledged there with candid thanks. Sincerely desirous that the public time should be exclusively devoted by the Legislature, now in session, to the consideration of the interests of the Territory, and the passage of such encouragements and safeguards as they immediately require, I respectfully entreat that the House will withhold its courtesy and good feeling toward me in favor of the weightier subjects that

demand its attention.

The labors of the Legislature, which have been as sensible and beneficent as they have been arduous and unremitting, drawing, as they now are, to a close, renders, I conceive, this request of mine all the more reasonable, opportune and forcible. I beg, moreover, to assure the House, whatever recognition it is thought that my services in the field are entitled to receive, should be in justice rendered in an undivided measure to the officers and men it was my splendid good fortund to command. Whatever name I bear as a citizensoldier in the cause and history of the Republic, has been bestowed upon me
by the brilliant conduct of the brigade that has, with an unrefutable record,
manifested the gratitude and loyalty of Ireland to America. Even had my
services in the camp and in the field been far more important that it was in my power to render them, I should consider myself already more than fully rewarded for what they were worth, or what they cost me - not speaking of the vote of thanks passed me by the municipal council of the greatest city of the Union, the complimentary addresses and other testimonials presented me by many of its most influential and noted citizens, the flattering notices that have, in various attractive quarters, given me, in connection with the war, an undue distinction—it is my priceless privilege to carry with me in a golden gift of rare value, the confidence and friendship of the officers who served with me, and, what I still more desire, the fervent affections conveyed in honest and familiar letters of many an humble soldier who fought beside me.

These, permit me to say, sir, are acknowledgments and rewards sufficiently generous for me for any military services of mine, and more - infinitely more

- than 1 have merited.

Sincerely thanking the Representatives for the honor they propose to do me, believe me to remain,

Most truly yours, THOMAS FRANCIS MEAGHER,

Acting-Gov. Montana Territory.

Washington, D. C., February 20th, 1866. \
To Acting-Governor Thomas Francis Meagher—Sir: I am in

receipt of your letter of the 24th ult., giving certain reasons why it is better for the agent for the Flathead Indians to report through your office than through the Idaho superintendency.

The change of this agency from your superintendency to that of Idaho, was made in my absence. I find nothing in the office going to show why it was done; and, as it is clear that Virginia city is more accessible to the agency than Boise city, I have determined to restore the agency to your charge. You will, therefore, direct agent Augustus H. Chapman, at the Flathead Agency, to report to this office through you.

Very respectfully, your obedient servant,

EXECUTIVE OFFICE, MONTANA TERRITORY,) VIRGINIA CITY, April 13th, 1866.

The adoption of the following from the consignite

To the Speaker of the House of Representatives:

SIR-I have received this morning the graceful and liberal thanks of the

two Houses of the Legislature.

I called the present Legislature into action. I did so with the hope and conviction that the men designated by the people to propound and enact laws for our young community, would not be unfaithful to their trust, so sacred and vital. I called the Legislature of the Territory together for the reason that I found Montana in a state, politically speaking, of imbecility and stagnation. American communities are not properly and successfully developed unless their intelligence is let loose and given a full and authoritative position to express and illustrate itself. So far from being deceived in my calling together the Legislature, I have been heartily and thoroughly gratified, with very few exceptions, that, indeed, the Legislature has been most considerate and serviceable to our Territory. No political prejudices, as far as I know, have interfered with the frank, wholesome and generous consideration of questions and measures submitted to the Legislature.

The Legislature has vindicated my faith in their good faith and intellectual ability; and I have to thank each member of the Council, as well as the House of Representatives, for the personal courtesy and cordiality I have experienced from them every day of the session, and which went far, I hope and trust, to subdue and soothe any asperity which my vetoes of certain bills may

have naturally provoked.

With the truest and highest regards, I have the honor, gentlemen, to be, Most truly, your obedient servant,

THOMAS FRANCIS MEAGHER, Acting-Governor, M. T.
